Elsie Goines, Superintendent

AHERA ASBESTOS NOTIFICATION

DATE: October 1, 2014

Dear Parent/Staff Member,

In 1986, the Asbestos Hazard Emergency Response Act (AHERA) was signed into law requiring all public and non-profit private schools (K-12) to inspect for the presence of Asbestos Containing Building Materials (ACBM). Las Animas School District Re-1 is in compliance with the State of Colorado, EPA division and has completed the required asbestos inspection on our school buildings. A copy of the inspections, subsequent reinspections and a Management Plan devised to keep in compliance with applicable regulations can be viewed at the main office of the school. Copies of the material are available for nominal copying charges.

We at the Las Animas School District Re-1 are committed to providing a safe and healthy environment for our children and staff. If you have any questions, please contact Elsie Goines at the main office.

Sincerely,

Elsie Goines
Superintendent of Schools
Las Animas School District
